General Contractors for Commercial Construction

The cooperative team attitude of your staff has been a contributing factor to the success that we have had leaving behind satisfied clients. We are assured from the level of performance displayed on these projects that this philosophy starts at the top.

We would also like to commend you on the quality of drawings that are coordinated and complete. We find the completeness of drawings a refreshing and welcome contribution in the industry and one of the most important factors of any construction project.

Sincerely,

A handwritten signature in black ink, appearing to read "Scott Houston", written in a cursive style.

Scott Houston
Vice President
